Examiner's Statement of Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: claim 50 is allowable for setting forth a miter saw comprising a bevel housing disposed between a saw and a miter base, a rotatable shaft coupled to a lock handle having cam surface, wherein the movement of the lock handle results in forward and backward movements of the rotatable shaft, and a gear being contained within the bevel housing, wherein the gear is connected to the rotatable shaft such that the rotation of the gear results in the rotation of the rotatable shaft.

For example, Brazell et al. (US Pub. 2003/0110914) teach a miter saw comprises a bevel housing 146 and a rotatable shaft 130. Brazell et al. do not teach a rotatable shaft coupled to a lock handle having cam surface, wherein the movement of the lock handle results in forward and backward movements of the rotatable shaft, and a gear being contained within the bevel housing, wherein the gear is connected to the rotatable shaft such that the rotation of the gear results in the rotation of the rotatable shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
